Persevering Through Infertility is a collection of the real life stories of individuals and couples who have experienced IVF, IUI, Secondary Infertility, Donor Eggs, Donor Sperm, Advanced Maternal Age, Diet, Acupuncture, Chinese Herbs, Endometriosis, Polycystic Ovarian Syndrome, Uterine Lining issues, Blocked Tubes, Male Factor, Surrogacy, Domestic and International Adoption, Embryo Adoption, etc. These men and women are courageous, they are determined, and they are focused. They are the most deserving to be parents, and due to a physical problem or a stroke of bad luck, they struggle with something that comes naturally for most. You will find that not all the stories resulted in pregnancy. Some have resolved their infertility, in a variety of ways, while others continue on the journey. While the statistics are not encouraging, there are tools to help beat the odds and while this book doesn't promise to be a silver bullet or medical miracle, it will help those experiencing Infertility cut a few corners, have less frustration, gain knowledge, insight, hope, inspiration, encouragement, comfort and power and all the ammunition to tip...

Unquestionably, this is the best work by any author. Better than ever, though I am quite late in starting to read this one. I realized this publication from my dad and I advised this PDF to find out.
