

A Scheme for: The Detection of the More Common Classes of Carbon Compounds (Classic Reprint) (Paperback)

By Frank E Weston

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Scheme For: The Detection of the More Common Classes of Carbon Compounds The lack of any systematic scheme for the identification of carbon compounds suitable for students preparing for the Final B.Sc. Examination of London and Honours Chemistry Examination of the Board of Education, led the Author to draw up the present notes - primarily for the use of his own students at the Polytechnic Institute, Regent Street, W. This scheme, which has grown to its present form as the result of several years experience, has been found so useful to his own and other students, that the Author ventures to offer it to a wider public. The scheme enables a student to assign a carbon compound to its class, and, in many cases, to identify the body completely. The reactions of the commonest substances are omitted, since they are to be found in the usual analytical organic text-books. Preface to Second Edition In the present edition details of some of the general reactions have been amplified, and recent work in this direction included....
