Springer Publishing Co Inc. Paperback. Book Condition: new. BRAND NEW, Gerontology Nursing Case Studies: 100 Narratives for Learning (2nd Revised edition), Donna J. Bowles, Vivid case examples help to guide nurses in developing appropriate interventions that include complementary and alternative health therapies and provide a basis for evaluating outcomes. Exercises interspersed throughout each case study include numerous open-ended and multiple-choice questions to facilitate learning and critical thinking. The text is unique in that some of the presented cases focus on psychosocial issues such as gambling addiction, hoarding behaviour, emergency preparedness, and long-distance caregiving. Cases also depict geriatric clients who are living healthy, productive lives to counter myths and negative attitudes about older adults. Scenarios demonstrating ethical dilemmas prepare students to appropriately respond to "gray area" situations. The text is geared for AACN and NLN Accreditation and is organized according to the needs of actual clinical settings. With cases that take place in the home and community or within primary, acute, and long-term care facilities, this book will be useful for courses specific to gerontology nursing or across any nursing curriculum. New to the Second Edition: A completely new section of Aging Issues Affecting the Family New cases addressing Healthcare Disparities, Aging in Place, and Prevention of Catheter Associated Urinary Tract Infection Additional contemporary case studies Additional video clips and animations embedded throughout the text The addition of Quality for Safety in Nursing Education (QSEN) Initiatives A greater focus on prioritization and delegation of client's needs infused throughout exercises.
